## 1. INTRODUCTION

In recent years, due to the increase in load and the need for rationalization of steel components, there has been a tendency for high-strength bolt (HSB) frictional joints, to become larger and longer. In contrast, as the length of the joint increases, the actual force that can be withstood is less than the design strength because the distribution of bolts within the joint becomes uneven.

## 2. FORMAT

Papers should be two pages long and must be printed on A4-sized white paper (21.0 cm wide by 29.7 cm long). The left and right margins should be 1.5 cm, the upper and lower margins being 1.8 cm. Use Times New Roman font type. As for the size of the font, it should be 10.5 points or size as close as possible. Your paper should also be single-spaced.

## 3. PAPER SUBMISSION

Submit full papers in PDF format via the website.  
→ <http://committees.jsce.or.jp/zenkoku/> Only online submissions will be accepted. The PDF file size should not exceed 700KB and should not be password protected.

## 4. ORGANIZATION OF THE PAPER

### 4.1. Title

Leave one blank lines then type the title of your paper. The title should be in capital letters using 12-point bold typeface. Please center the title. Leave one blank line below the title.

## 5. Authors' names, affiliations and types of JSCE membership

Type the authors' affiliations, types of JSCE membership and names using 10.5-point plain typeface. Put " before the name of presenter. Each author's name should appear in the order of the first name, middle name, and last name. The list of authors should be right justify. Leave one blank line under the authors' names. Below the authors' information the text of the paper follows and should be 10.5-point size throughout.

## 6. HEADIN

The heading should be left justify and typed in capital letters with bold typeface. The heading must have one blank

above and below it. There is no indentation for the paragraph following headings and sub-headings. The subsequent paragraph must be indented five spaces. Do not leave extra spaces between paragraphs.

## 7. SUBHEADING

Sub-headings should be in upper and lower case with bold typeface. Sub-headings must be flush against the left side of the text. There must be one blank line above sub-headings. Do not leave an extra space below sub-headings. Please use the above-mentioned rules for indentation.

## 8. EQUATIONS

Equations must be written with the same word processor used for the text, without hand written symbols in order to aid legibility. Equations must be centered and numbered sequentially with their numbers in parenthesis and justified to the right. Please refer to the following equation:

$$E = MC^2$$

The equation should be cited in the text as Eq. (1), Eq. (2), etc.

## 9. FIGURES, TABLES and PHOTOS

Figures and tables should be numbered, for example, Fig. 1, Table 1 or Photo 1. Place table titles above tables and figure titles below figures. Allow one blank line between the titles for tables and figures. Allow one blank line between tables or figures and the adjacent text. The titles for tables and figures should be centered. Figures and tables should be placed close to where they are cited.
